Hairpin Data Updates

Automate the boring stuff!

Hairpin Export and Import

Automate the boring stuff!

Hairpin?

Refers to exporting data from one area and immediately re-importing it to another area

What would be helpful to automate?

Homeroom

List S	Sched	ule 👉		
Ехр	Trm	Crs-Sec	Course Name	Teacher
1(A)	24-25	HR-54	Homeroom	Fullmer, Beverley B
2(A)	24-25	EL501-54	5th Grade English	Fullmer, Beverley B
3(A)	24-25	EL502-54	5th Grade Math	Fullmer, Beverley B
4(A)	24-25	EL503-54	5th Grade Social Studies	
5(A)	24-25	EL504-54	5th Grade Science	Modify Info To
6(A)	24-25	EL2000-54	Art	
7(A)	24-25	EL1000-54	General Music	
8(A)	24-25	EL3000-54	Physical Education	Modify Info
				Family rep
				Graduation Requirement Set
				Home Room Fullmer

The "bend" - temporary storage location --- 🤇

- Local File System of the server
 - \circ $\,$ Also works for hosted customers, even without direct access
 - AutoSends and Data Export Manager exports are saved to:
 C:\Program Files\PowerSchool\data\external\autosend
 - AutoComms and Scheduled Data Imports start in:
 C:\Program Files\PowerSchool\data\external\autocomm
 - When importing, you can reference ../autosend/filename to pick up files saved by AutoSend or Scheduled Exports
 - When exporting, you can reference ../autocomm/filename to save files to the folder expected by AutoComm or Scheduled Imports
 - \circ $\,$ Different for servers setup with a shared resource folder.
- You can also use an SFTP share if your school has one available and setup in Remote Connection Manager

Export - Use period_info

• <u>Community Article ID 12594</u>

• Always note the correct expression on a student's schedule

Ехр	Trm	Crs-Sec	Course Name
1(A)	24-25	HR-54	Homeroom

- ^(*period_info;1(A);teacher_name)
- ^(*period_info;1(A);teacher_preferred_name)
- ^(*period_info;1(A);teacher_i_{field_name})
 - o ^(*period_info;1(A);teacher_i_last_name)

AutoSend

- System Management > Data > AutoSend Records
- Fields/DATs to send:
 - \circ student_number
 - ^ (*period_info;1(A);teacher_i_last_name)
- Send output to "Local (or shared) File System
 - AutoSends and Data Export Manager exports are saved to:

C:\Program Files\PowerSchool\data\external\autosend

- Path: specify a filename
 - o example: homeroom.txt

AutoSend

Export My Templates Scheduled System Templates

By scheduling an export on this page of Customer Data from this institution's instance of PowerSchool SIS, you are expressly warranting that you have the authority from the applicable institution, the data controller of the Customer Data, to conduct this export. Moreover, you acknowledge and indemnify PowerSchool from any claim resulting from your action to export the data to another location. You assume all responsibility for the security of the Customer Data in the location where the Customer Data is to be exported. Finally, you acknowledge that PowerSchool will log your scheduling of the export from this page.

Template Name	Description	Data Source	Actions
Global ID Export		PSUG CAL - Global ID Update	• –
Student Email Export		PSUGCAL - Email Example	0 –

Click a template name to load for export or editing.

Fields to export: Attendance Field list: ✓	student_number ~(decode;1;1;~(student_web_id)@powerschool.com;)

Sample File

- You need a sample file to setup the import template.
- If using AutoSend, use Quick Export for setup with the same fields and DATs as in AutoSend.
- Uncheck the "Column titles on first row, because AutoSend won't include them.
- If using a PowerQuery, export a sample file from the template in DEM
- With a PowerQuery you can keep the column titles.

Data Import Manager

- Data and Reporting > Imports > Data Import Manager
- School Context matters, setup your import template at the right school level or more likely at District Office
