SoCal PSUG Meeting - January 25, 2019

Agenda Items:

- **State Reporting**
  - ~~12.1.1. will require your custom fields to be migrated~~
    - **UPDATE: This was determined to be incorrect.** User created custom fields are not required to be migrated by core SIS.
  - Recorded presentation by Stephanie Cummings
    - Email Erik Negroe (enegroe@smusd.us) for a copy of the presentation
  - CRDC 2017-2018
    - Released on August 31, 2018
    - Updated report and documentation were released January 11, 2019.
    - Submission window is set to open in mid-February
    - 2 files incorporated into one file
  - CALPADS Student Discipline Reporting
    - Updates targeted for January 31, 2019
    - Create an incident for every Ed Code 48900 type of incident
    - LEAs must report all incidents that meet the Ed Code criteria, regardless if results in a disciplinary action of suspension or expulsion.
    - If you do not report any incidents, your dashboard indicator will be elevated because it would not be normal to have zero incidents.
    - If it's not a suspension or expulsion, use code 300 "No suspension or expulsion". Suspensions and expulsions DO still continue to use 100, 110, or 200 codes.
    - Duration entries can be left blank for the incidents with a 300 code.
    - One attendee did validate that the 300 codes are extracting for all students with the latest State Reporting update.
    - Previously, less than full day duration for incidents was only reported for students with an IEP. Partial days for any student will now also be reported
    - The 300 code will eventually change to read something like "other means of correction"
  -
- **Electronic Score Reporting (CAASPP)**
  - New Credentials every 90 days.
    - Enter and store your LEA's credentials every 90 days from email sent to LEA coordinator
    - District Office > System Administrator > Electronic Reporting Communication Setup.
  - State Law dictates you have 20 days to make them available to parents.
  - In February scores will not be reported in paper anymore, will be electronically delivered.
  - Reports available on the Admin, Teacher, and Parent portals with new link added in 12.1+.
  - Reports will be links to a PDF which can then be printed or saved by the user. Link will expire after 30 minutes, but new link can be requested if needed again later.
  - Paper reports can be requested for $$ or self-printed by the district at their own expense if paper copies are desired.
  - Initially only CAASPP and ELPAC information. More with later updates.
  - Question about still getting the raw data via CSV, unsure, but Stephanie is looking into it.
  - Mobile App coming in the future
  - Recording of Demo played during the meeting. Recording available on PowerSource at https://support.powerschool.com/dir/5803 or Email Erik Negroe (enegroe@smusd.us) for a copy of the recording.

- **What's New in 12.1 and 12.1.1-Presented by Roger**
  - Be aware of the BIG changes to CPM in 12.1.0. CPM is moved to a new place and is turned off for everyone by default. Must grant access via Group security. Read article at https://support.powerschool.com/article/80649
  - If you are a Blue Steel CPM user, a new version has been released to be compatible with 12.1 at https://support.powerschool.com/exchange/view.action?download.id=749
  - "What's New in PowerSchool 12.1" presentation available on PowerSource at https://support.powerschool.com/exchange/view.action?download.id=958 and also presented on the PowerSchool Insider Episode 54
    - Overhaul Class Sorting
    - New Enterprise Report:Standard Grades
    - PowerTeacher Pro
      - PTP Report Queue
      - Co-Teachers can now copy assignments into their sections
      - Revert Grade Setting to School Defaults
      - Option to recalculate scores and grades
    - PowerSchool Mobile
    - Code Set Editor
    - Mass change Contacts
    - Data Export Manager - 3 New Data Sets
      - Contact Data - Filter with variations
      - Student: Legacy_Contacts Data Set
      - New Contact Core Fields
    - Clock In/Clock Out Times
      - Attendance Workflow
      - Percent Percentage for Period Attendance
    - CPM now in Admin Portal, must set up page access
    - Grade Screen Redesign

- What's New in PowerSchool 12.1.1 is available by watching PowerSchool Insider Episode 57 available at https://support.powerschool.com/article/77936
    - 3 Major New features
      - Percent Attendance Conversions
      - Contacts
      - More search lines in DDE
    - Email Roger for a copy of the presentation (rsprik@vcschools.org)

- **CalGrant GPA and uploads**
  - Link to CalGrant resources
  - CalGrant GPA method in PowerSchool
  - Export template for CalGrant
  - Upload process
