

Hide Student Contacts Plugin

by Roger Sprik | July, 2018 | version 1.6

By default this plugin completely hides the new Student Contacts feature, released in version 12. The rationale is not to avoid Student Contacts indefinitely, but allow you to upgrade for all the other benefits, and have time to prepare to transition to Student Contacts for when your district is ready.

The plugin does not remove any student contacts, it just removes the links to interface with them. Once you are ready to use Student Contacts, it is recommended to disable or delete this plugin.

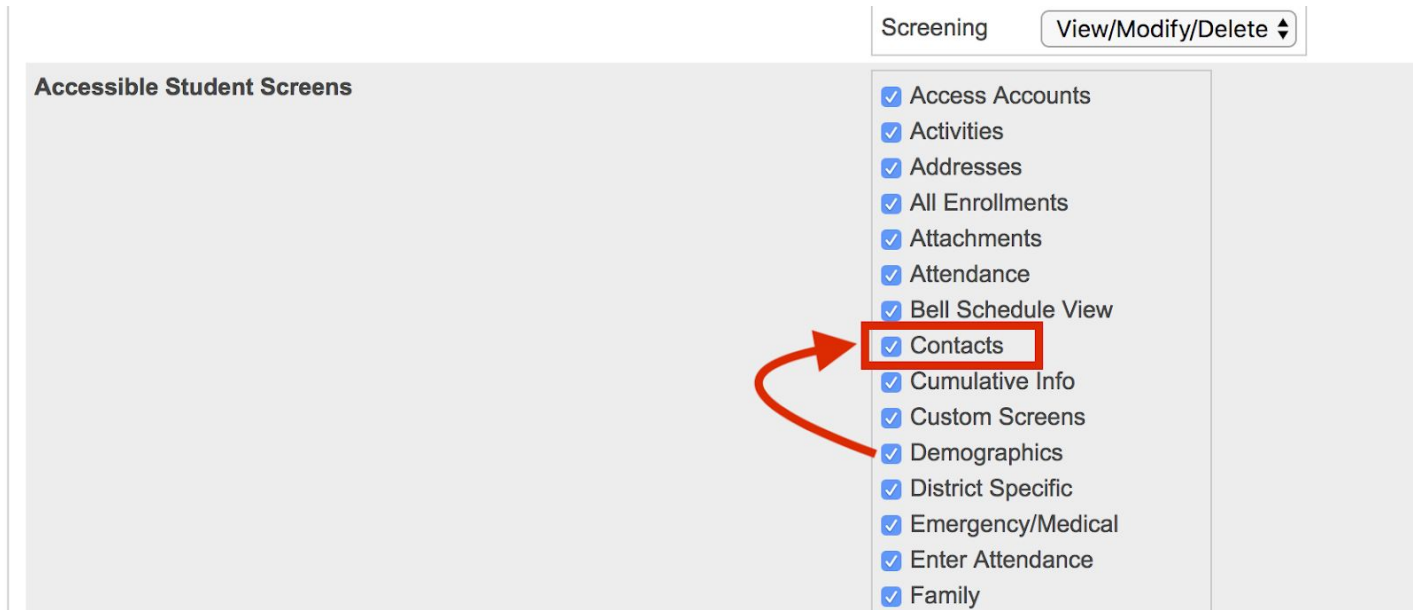

Start Page

One of the main areas is the Start page in PowerSchool. The plugin removes the new "Contact" elements and replaces them with the original "Parent" elements. See the "Before" and "After" comparison below.

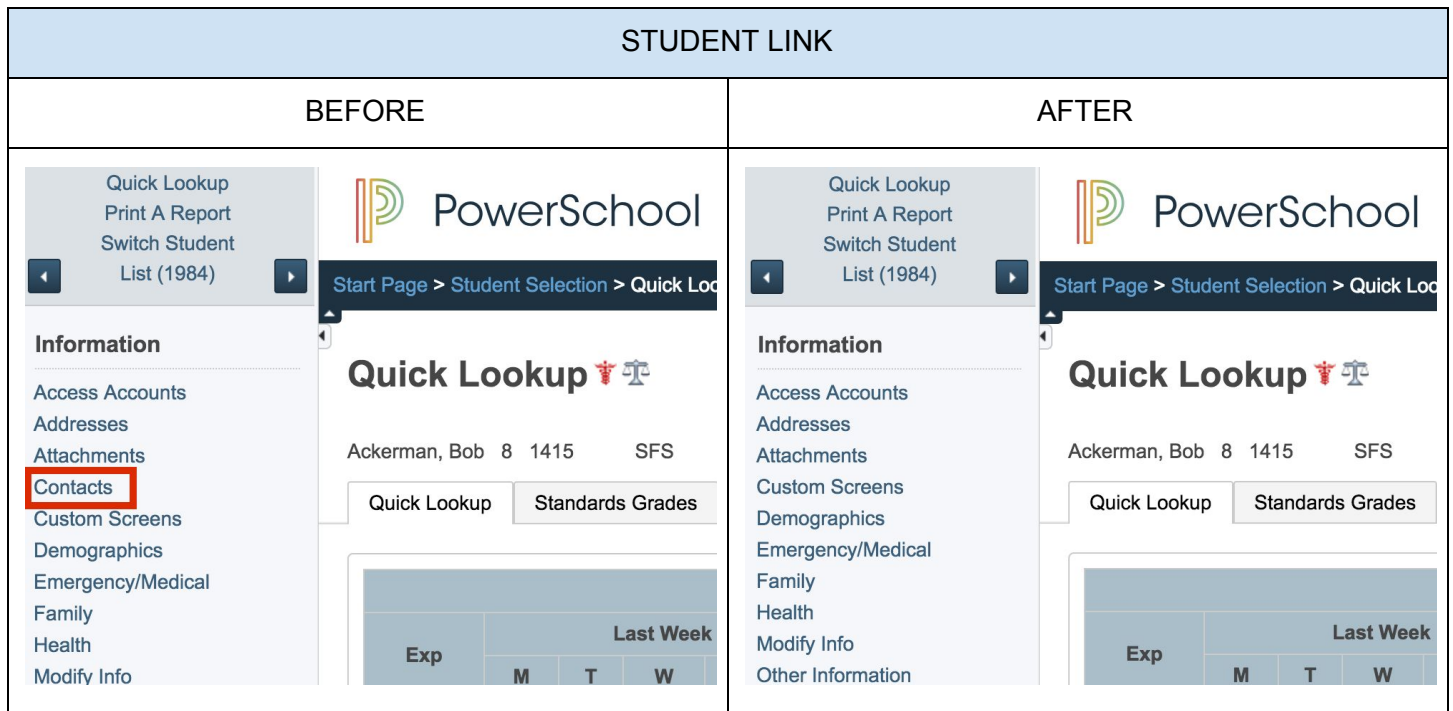

START PAGE	
BEFORE	AFTER
<ol style="list-style-type: none">1. "Contacts" Tab2. "Contacts Search" Link3. "New Contact Entry" Link	<ol style="list-style-type: none">4. "Parents" Tab5. "Search Parents" Link6. "New Parent Entry" Link
 <p>The screenshot shows the 'Start Page' interface. On the left is a sidebar with categories: Functions, Reports, People, and Setup. In the 'Functions' list, 'Contact Search' and 'New Contact Entry' are highlighted with red boxes and labeled '2' and '3' respectively. At the top of the main content area, there are three tabs: 'Students', 'Staff', and 'Contacts'. The 'Contacts' tab is highlighted with a red box and labeled '1'. Below the tabs is a search bar and a grid of letters (A-K) and numbers (1-8). A message box says 'The current selection is empty.' Below that is a 'What's New' section.</p>	 <p>The screenshot shows the 'Start Page' interface after the plugin is applied. The sidebar is identical. In the 'Functions' list, 'Parent Search' and 'New Parent Entry' are highlighted with red boxes and labeled '5' and '6' respectively. At the top of the main content area, there are three tabs: 'Students', 'Staff', and 'Parents'. The 'Parents' tab is highlighted with a red box and labeled '4'. Below the tabs is a search bar and a grid of letters (A-K) and numbers (1-8). A message box says 'The current selection is empty.' Below that is a 'What's New' section.</p>

Student Link

PowerSchool adds a "Contacts" checklist item to Group Security and enables it for any user that also has access to the "Demographics" screen.

When you select a student, the plugin also hides the "Contacts" link in the left navigation. You don't need this plugin to hide that link, you could uncheck it from each Security Group -- the plugin just features a "one step" way to do it.

Contact Change Confirmation

On the Demographics, Parents, and Emergency/Medical Screen, a change to the original Mother, Father, Guardian, or Emergency contact name can trigger a "Reason for Change" confirmation from the user.

If the user chooses "Replacing Person", submitting the change will lead to a confirmation screen that encourages them to make the change in the contacts screen and features a "Go To Contacts Page" button which the plugin will hide, but will still allow the contact to be replaced.

Emergency Contact/Medical

Adair, Brandon 12 3 A AGHS1

Contact #1	Contact Name (Last, First) Mccarthy, Mark
	Reason for Name Change Replacing Person

Parent Search Results

When you search for parents with the legacy Parents Search, if there are multiple or zero results, there is a "Parent Search Results" screen that features a Contacts tab which the plugin will hide.

PARENT SEARCH RESULTS	
BEFORE	AFTER
<p>Parent Search Results</p> <p>Select a parent to view details</p> <p> No Parents match your entry</p> <p><input type="button" value="Back"/></p> <p>Students Staff Parents Contacts</p> <p>First Name <input type="text"/></p>	<p>Parent Search Results</p> <p>Select a parent to view details</p> <p> No Parents match your entry</p> <p><input type="button" value="Back"/></p> <p>Students Staff Parents</p> <p>First Name <input type="text"/></p>

Access Accounts Student Screen

When you select a student and then view their "Access Accounts" screen, the previous functions to work with parents now work with Contacts. The plugin will restore the parent functionality and hide the links to Contacts.

Selectively Enable Contacts by Security Group

By default the plugin will hide all the Contact elements from all users. You may want to enable the Contacts feature for **SOME** users. If you enable this setting, **ALL** Contact functionality will be enabled for any member of a Security Group that has the Contacts screen checked in their "Accessible Student Screens" section.

To enable this option, visit the "Student Contacts Hide" link in District settings (under "District Info").

The "Hide Student Contacts Setup" page features:

1. A checkbox to enable this feature
2. A reminder of which security group(s) the currently logged in user is a member of
3. For convenience, a link to edit Security Groups
4. For information, a list of all the Security Groups that have Contacts enabled.

Note that a large number of security groups may be enabled for Contacts, since it was based on their existing access to the "Demographics" screen.

District Information

District Info
Districts of Residence
Miscellaneous
Schools/School Info
Student Contacts Hide
Sign In Screen Custom Message
Student Numbers

Be sure to submit the setting change with the submit button at the bottom of the screen. After updating Security Group settings, the user will need to log out and back in to see the changes to their access.

Enable Contacts by Security Group

Enable based on Group Access to Contacts Screen **1**
If unchecked, Student Contacts are completely hidden

 Security Groups with Contacts enabled. *You are in group 9* **2**

[Edit Security Groups](#) **3**

- (1) Unassigned
- (2) Office Staff
- (3) Counselors **4**
- (4) Registrar
- (5) Group 5
- (6) Group 6
- (7) Group 7

Note: Additional security around Student Contacts, such as "View Only" access, is not addressed by this plugin and should be setup based on the stock functionality available in PowerSchool, such as "Access to Page Permissions".

Version History:
1.6 July 2018 - Fixes bug that prevented plugin from working in Safari browser
1.5 July 2018 - Fixes issue on Access Accounts when single quote existed in name
1.4 May 2018 - Reverts Access Accounts Page back to pre 12.x functionality
